Continuation of 11, does NOT place the application in condition for allowance because: No new arguments have been presented at this time. The arguments regarding the molecular weight of the PS have been previously discussed and the claimed molecular weights are still considered to be an obvious choice of an ordinary artisan..

Continuation of 13. Other: The file of the instant application contains no record of an IDS allegedly filed by the applicants on 8-10-2006. The only submission dated 8-10-2006 of record is a response to the rejection (15 pqages) as indicated on the electronic receipt. It is suggested that the applicants re-submit the8-10-2006 IDS referred in ther response along with the evidence that such IDS was, indeed, filed on the referenced date. The examiner will consider thie IDS, provided it was properly submitted at the referenced date.
